Dear Parents/Carers

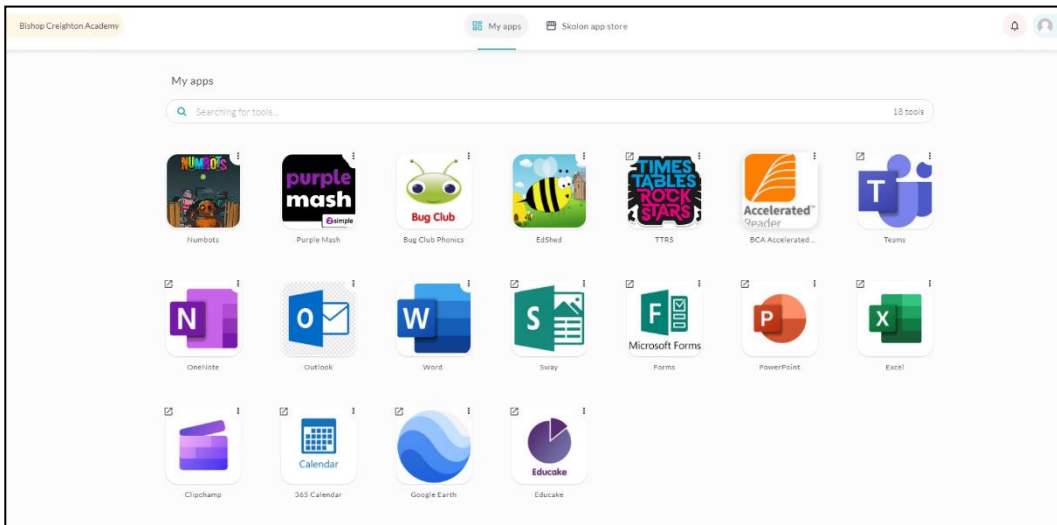

Skolon access from home

Greenwood Academies Trust have recently moved away from using the 'Airhead' platform to now using 'Skolon'. This new platform works in a similar way to Airhead in that once a child has logged into their account, they can access all online learning tools used in school by clicking on the relevant icon. It should also sign them in to their accounts through a 'single sign-on' system.

Your child can log in to their Skolon account by clicking on this link or typing the following into an internet browser; <https://ext-idp.skolon.com/a/GAT> They will need their username (email address) and password which has already been shared with you and may be found in their reading planner.

Below is an example of what your child's Skolon platform looks like. Please be aware that for our younger pupils there will be icons (tools) on there that your child does not use yet. Login details for these will be shared with you when appropriate.

If your child has any difficulties logging into their account from home, or has misplaced their login details, please speak to your child's class teacher in the first instance.

Yours sincerely

Mrs K Baldock
Assistant Principal, Computing Leader
